

Maze

It takes one year for Earth to revolve around the sun. Can you find the path from Start to Finish?

Connect the Dots

This type of creature lived with Earth for 175 million years!
Connect the dots and color Earth's friend.

I Love You, Earth!

What are your three favorite things about life on Planet Awesome?
Draw or write about them in the boxes below.

Three empty rectangular boxes with orange borders and yellow corner tabs, intended for drawing or writing. The boxes are arranged with two at the top and one centered below them.

On the Inside

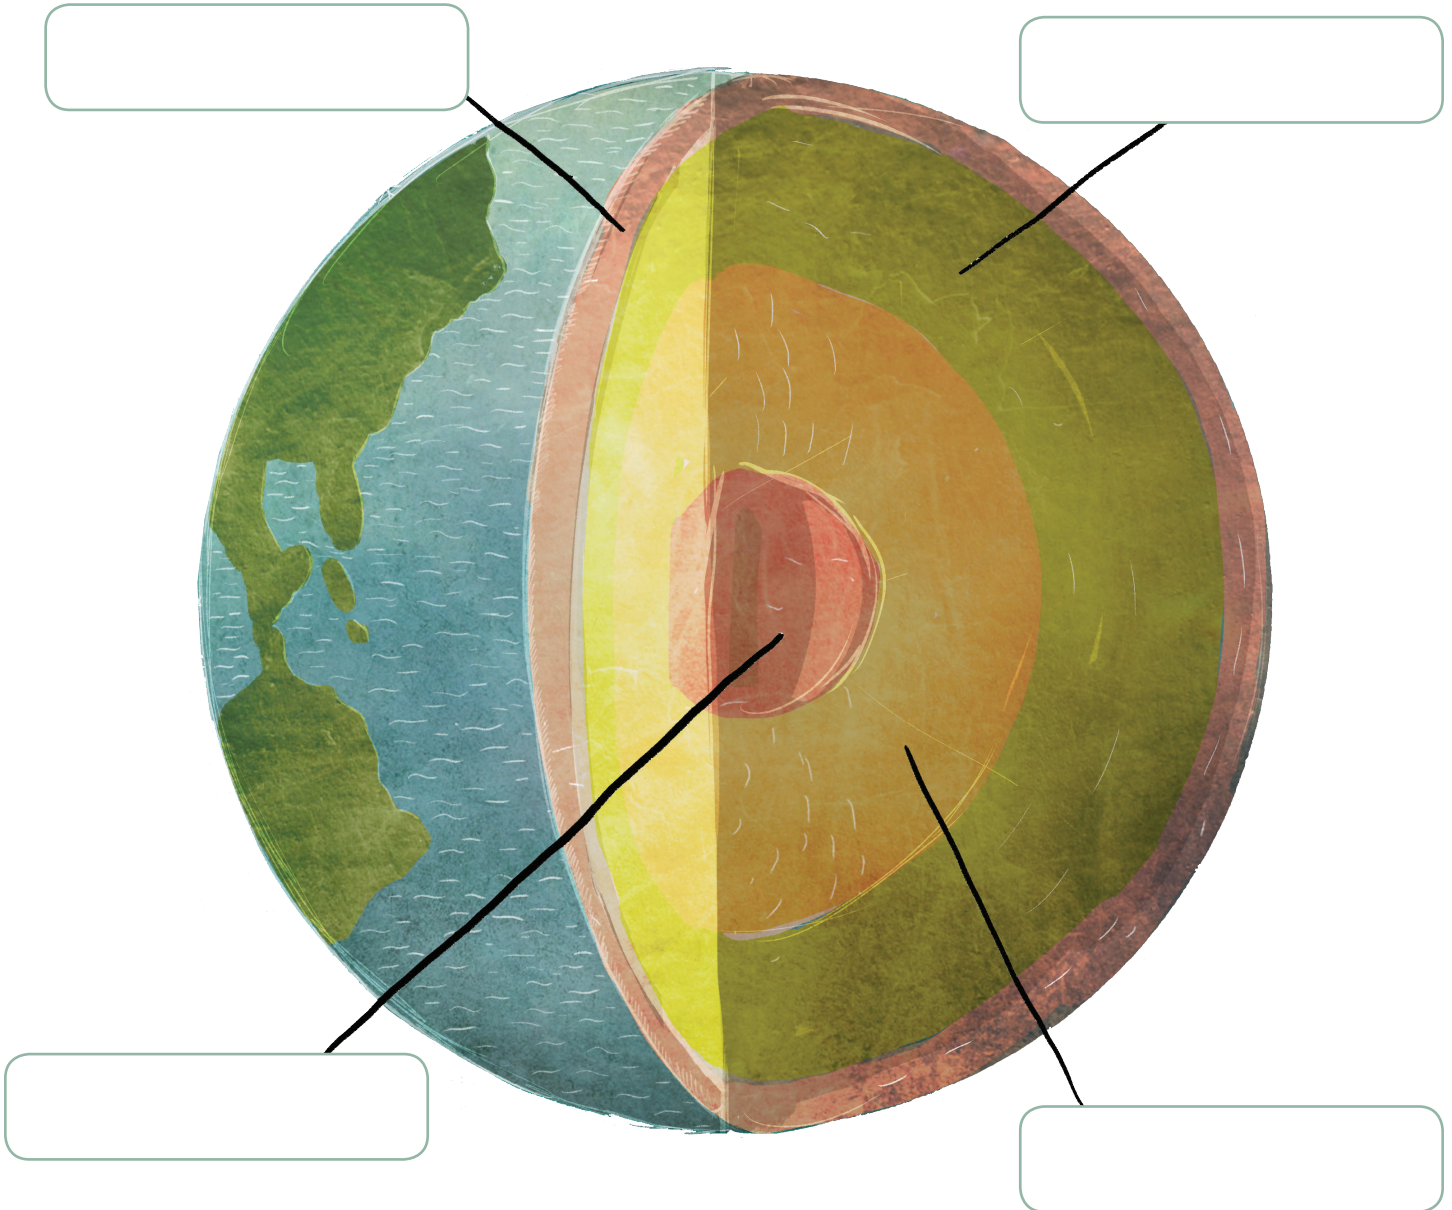

Lots of things might happen to Earth on the surface—Ice Ages, volcanic eruptions, asteroid collisions—but Earth stays the same on the inside. Can you label the four sections of Earth's interior?

Crust

Inner core

Outer core

GarLand

Cut out the triangles and tape them (points facing down) along
a ribbon or string to spell I LOVE E-A-R-T-H!

Hang your garland across a
doorway or window.

I Love
