

BUILD YOUR OWN ROBOT!

How does Donovan make his robot truly stand out in *Ungifted*? By giving it awesome decorations and a name, Tin Man Metallica Squarepants! Now you can create your own robot by following these simple instructions.

1. Decide what you want your robot to do. What's its purpose?
2. Decorate the template to reflect your robot's personality and function.
3. Cut out the template (make sure to include the flaps!).
4. Fold along the solid lines, making strong creases.
5. Glue or tape the flaps into place.
6. Assemble the pieces.
7. Give your robot a cool name!
